

William Torbitt Primary School

HOME LEARNING POLICY

This Policy was reviewed in March 2015 and ratified by the Full Governing Body in July 2015

This policy is due for review in March 2017

What is home learning?

Home learning refers to any work or activities which pupils are asked to do outside lesson time, either on their own or with parents / carers. It is an important aspect of a child's education, encouraging them to see that learning can take place outside the classroom, and it promotes independent learning. It supports, prepares and consolidates school-based learning and allows parents, carers and the school to work in partnership for the benefit of the child.

Why have a Home Learning Policy?

This policy aims to ensure that:

- Parents and carers are treated as partners in their children's learning.
- There is a regular programme and a consistent approach throughout the school so that everyone - teachers, children and parents / carers - knows what to expect.
- Children and parents / carers are clear about what they need to do.
- There is a progression towards independence and individual responsibility.
- Tasks are carefully planned to support, prepare, consolidate and reinforce skills and understanding, particularly in English and Maths.
- Children receive prompt, clear feedback on their work in a form suitable to the task.
- Appropriate monitoring and evaluation takes place to support learning.
- The needs of the individual pupils are taken into account. (Learning needs, personal and social home contexts, learning styles).

What is the role of the school?

- To provide parents with a clear policy regarding home learning.
- To ensure this policy is fully and consistently followed.
- To provide support for parents with information about home learning.
- To provide workshops / policies for parents/carers to help them support their children at home
- To provide support for children with the running of a Home Learning Club.

What is the role of the teacher?

- To plan and set activities linked to the National Curriculum and class-based work that are interesting and appropriate to the needs of the child.
- To ensure all children understand the home learning activities they have been given.
- To give prompt feedback on activities completed.
- To be available to talk to parents and children about home learning activities.
- To inform parents if there is a problem regarding the completion of home learning activities.

What is the role of the parent / carer?

- To support the child in completing home learning activities.
- To ensure the child completes activities to a high standard and hands it in on time.
- To provide a suitable place for the child to carry out the work.
- To provide the appropriate resources for the child to complete the work.
- To encourage and praise their child whilst they are completing a task.
- To look for ways to extend home learning by visiting libraries, museums, websites etc.

We are very keen for parents to support and help their children with tasks. We take the view that children are likely to get more out of an activity if parents get involved, as long as they do not take over. However, there are times when we will want to see what children can do on their own. It is particularly important, as they get older, for children to become increasingly independent in their learning. If a parent is unsure about what their role should be, they should discuss it with their child's teacher.

What is the role of the child?

- To ensure they have everything they need to complete the activity each week.
- To ask their teacher for help if they are not sure what to do before the task is due in.
- To put in the same level of effort as would be expected of class work.

- To hand the work in on time.
- To take notice of any feedback about the work.

How much time should be spent on home learning tasks?

- Reception 10 minutes a day reading with/to an adult
- Years 1 & 2 10 minutes a day reading – 30 minutes on other set tasks over the week
- Years 3 & 4 15 minutes a day reading – 1 hour on other set tasks over the week
- Year 5 20 minutes a day reading – 90 minutes on set tasks over the week
- Year 6 20 minutes a day reading – 90 – 120 minutes on set tasks over the week

(Times include reading, and are for general guidance only)

What sorts of tasks will be set?

We will set a range of activities to be completed out of school, eg tasks linked to literacy or numeracy, learning of tables, completion or extension of class work, additional research, and topic-based projects. The school expects that reading should be a daily activity for all children from Nursery to Year 6 (details outlined below). The school also strongly encourages children to be involved in regular extra-curricular music and sporting activities, days out to museums, galleries, outdoor activities and practical first-hand experiences out of school.

NURSERY AND RECEPTION

Learning together is the emphasis for children in Nursery and Reception. The activities are linked to the IPC theme with a strong emphasis on learning through play and doing practical activities together. It is an ideal time to lay the foundations for continuing learning at home and develop effective communication and language skills.

What type of work will my child get?

Daily Reading

In Reception parents will be informed of the themes, letter sounds and high frequency words that the children are learning in school each half-term. Starting in the autumn term and continuing all year, the main emphasis is on reading at home. This should be done in two ways:

- **Adults reading to children**
Parents should encourage children to point to words as they are being read. Discussion about the books is also important. A book at bedtime is an ideal opportunity in this aspect of their reading to share pictures, main characters and events in the book.
- **Children reading to an adult**
From the start of the year, children will start bringing appropriate books home to read to an adult. Again, encouraging the child to point to the words as they are being read is important. Discussing the story and the characters and asking questions about the book will help with the child's understanding of language.

Letter formation

At the beginning of the child's first term in Reception, the Reception teachers will provide parents with a sheet to support children with letter formation also found on Fronter. This shows where to start and finish when forming each letter and what each letter should look like. Giving children the opportunity to practise forming letters and also developing drawing skills with a variety of different tools will give them valuable practice. The important thing is to watch them and correct any mistakes sensitively so they don't fall into bad habits.

Tricky words (common words that are not easy to sound out, e.g. the, was) **and Phonics**

Children learn to read tricky words as part of 'Letters and Sounds'. Parents will be given a list of the words and sounds the children are learning to read and spell. Regularly practising reading them, reading and writing them in Reception, looking out for the words in reading books, and playing games with them will really benefit the child. For some children, it will be useful to practise writing the words as well as reading them. The teachers may send home games to give parents some ideas. It would be useful if these words were practised on a regular basis in the summer holiday before Year 1, as well as parents continuing to share books with their child.

Every Child a Talker (ECAT)

As a follower of the Every Child a Talker programme, we place great importance on the quality of talk that takes place between adults and children. Therefore, parents / carers should take every opportunity to talk with their children when involved in every day activities e.g. getting dressed, shopping, walking to school, in the garden, etc... Please note: evidence shows that it is just as valuable for the child's language development to have these conversations in the home language as it is to have them in English. Parents / Carers should aim to ask questions that require their child to give more than one word answers. Children should also be encouraged to speak in full sentences.

The school runs regular workshops to support parents / carers in helping their child's spoken language to develop well.

Termly newsletters give up to date information regarding children's themes for learning and will include ideas for home learning.

YEARS 1 & 2

For children in Years 1 & 2 we encourage parents to work together with their child to support them with their homework. The emphasis remains on literacy and reading, but we include ways in which children can be supported with important maths skills.

What type of work will my child get?

Reading

Reading on a regular basis is vital when children are in Years 1 & 2. Children will bring their reading books home every evening, and the role of the adult is to listen and support them. It is important to remind them to use different strategies to read new words - sounding out the word, looking at the pictures, and looking for words within words are ways in which the child can read an unknown word. Just as important is discussing the book to check that the child has understood what they have read. Children will have a reading record book which parents / carers should sign or comment in each time they read with the child.

Tricky words (common words that are not easy to sound out, e.g. the, was) **and Phonics**

Children learn to read tricky words as part of 'Letters and Sounds'. Parents will be given a list of the words and sounds the children are learning to read and spell. Regularly practising reading them, reading and writing them in Reception, looking out for the words in reading books, and playing games with them will really benefit the child. For some children, it will be useful to practise writing the words as well as reading them. The teachers may send home games to give parents some ideas. It would be useful if these words were practised on a regular basis in the summer holiday before Year 1, as well as parents continuing to share books with their child. Children should have the opportunity to practise their words over the summer holiday.

Mathematics

There are important skills that children should have in place by the time they leave Year 2. Parents can support their child by giving them a lot of opportunities to practise these skills:

Every other week teachers will ask the children to complete a maths task at home.

Further information of what maths skills the children can practise can be found on the school's website, on the curriculum page or on the Year Group's Fronter page.

My Maths - William Torbitt Primary School also subscribes to an online home learning programme called My Maths. Each child receives a username and password, so they are able to access learning activities set by their class teacher. Those children who do not have access to the internet at home, have an opportunity to come into school at 8:30am one morning during the week to use a school computer on-site.

YEARS 3 - 6

As children get older, home learning provides an opportunity for them to develop the skill of independent learning. It is important that parents support their children, but good habits of independent study should be encouraged. The main focus for activities in Years 3 - 6 continues to be literacy and numeracy; however, children will be given more varied tasks in other areas of the curriculum.

What type of work will be child get?

Reading

Children may read to an adult, with an adult, or to themselves in the presence of an adult. The story and characters should be talked about, and new words discussed. Older children need a clear understanding of the story that sometimes will go beyond the literal meaning of the text. Children will read texts that are more detailed and will take longer to read. They should be encouraged to read all types of texts, including non-fiction. Even though reading may not be a directed task from the teacher, it should be engaged with on a daily basis.

Reading Journals

For children to make good progress in their reading, they should read for a short period of time every day. To help the children keep track of what they read and develop their independence, we will be sending home a reading journal.

How to use the Reading Journal:

What your child should do

- Choose something to read every day. This could be their school reading book, their library book, newspaper, magazine or even perhaps letters they have read.
- After reading, write down the date, title and author of the text.
- Bring the reading journal to school and take them home every day.
- Children may also choose to complete a reading activity. These activities can be found at the back of the reading journal and help develop the children's thinking and literacy skills based on the text they have been reading.

What you should do

Sign or initial in your child's reading journal to agree that you child has completed their reading that day.

What the teacher will do

Children will be asked to regularly share their reading journal with their teacher and discuss what they have read. This would also be an opportunity for the pupils to share their chosen, completed reading activities.

English

This will be based around what the children will have been learning in class. Tasks will also include spelling, punctuation or use of vocabulary. They may be asked to read something and answer questions. Sometimes the task will be a piece of writing.

Mathematics

This will also be based around what the children will be learning in class or to practice a particular skill. The work could be linked to lessons on shape, measures or handling data. A lot of the activities will be based around number work. Children will be asked to make sure they know their tables from 2 to 12. They should be able to recite them and answer mixed questions of \times and the related \div , eg $7 \times 4 = 28$ and $28 \div 4 = 7$.

Further information of what maths skills the children can practise can be found on the school's website, on the curriculum page or on the Year Group's Fronter page.

My Maths - William Torbitt Primary School also subscribes to an online home learning programme called My Maths. Each child receives a username and password, so they are able to access learning activities set by their class teacher. Those children who do not have access to the internet at home, have an opportunity to come into school at 8:30am one morning during the week, so that they can use a school computer on-site.

Other areas

Tasks and activities could be linked to IPC topics work e.g. Science, geography, history and so on. It could take many forms: preparing a talk, completing a piece of research, or conducting an interview. The nature of this work may be more open-ended than in other areas.

How can parents find out more information about home learning?

To help parents / carers and children all homework will be set on **Friday** and due in on **Wednesday**. If parents need advice on how to support their children with home learning, they can talk to the class teacher. Similarly, children who require help or further explanation about a task should also approach their class teacher, who will be willing to help.

The school's managed learning environment (Fronter) is also used to communicate home learning activities. Both pupils and their parents / carers have access to this online.

Why will children sometimes be given extra tasks?

Children who take part in specialised lessons or booster groups may sometimes be set extra tasks to reinforce the work being done. Additionally, children who work in a one-to-one situation with learning support assistants will sometimes be given extra tasks. In both cases children should complete this work alongside their normal tasks unless the child or the parents have been told otherwise. If the child is finding that they have too much work, then parents should speak to the child's teacher or the person running the extra sessions.

What about children who don't complete home learning tasks?

The expectation is that children will complete home learning tasks. Teachers will keep records of children completing tasks and these records will be checked on a regular basis. If there are any problems with children not completing tasks, the teacher will speak to the parents to find out why. There may be occasions when a child will miss playtime or some of a lunchtime if they have not completed tasks, so that they can be done then. For children who are reluctant to complete tasks at home, and for whom this is causing a real problem at home, may be referred by the class teacher to attend a home learning club at lunchtime, where the tasks can be completed then. Also, to ensure equal opportunities, teachers may also refer a child who for one reason or another is not receiving the necessary support they need at home to complete tasks satisfactorily. All referrals will be for an agreed fixed period of time.

What if a child says they have not received any home learning tasks?

If there is any reason why a child will not receive a task to do at home, the teacher will inform parents in a letter. If parents have not received a letter, they should check with the child's teacher. There may be occasions when homework is not set if the teacher is away, but we will try to avoid that happening.

What if a child is absent from school?

If a child is absent due to illness, the school will not send work home. However, if a child is absent for a length of time, eg with a broken leg, the teacher will arrange for some work from across the curriculum to be sent home for the child to complete. In such circumstances the teacher should consult the headteacher first.

It is not possible to give work for children to complete when parents take their children out of school for holidays during term time.

How will the home learning tasks be marked?

It is important to maintain pupils' motivation and they will receive prompt feedback from their teachers. This may be through:

- Discussions in class.
- Comments on their written work.
- Mentioning achievements in commendation assemblies.

Who will monitor and evaluate the Home Learning Policy?

Senior staff regularly review the Home Learning Policy. This is an ongoing process where pupils, teachers and parents are asked for their views on its effectiveness. As part of the process a sample of home learning books and reading record books will be checked from time to time.
