

## How to access Home Learning

Home learning will now be on DB Primary.

- Go to the William Torbitt DB Primary page ([williamtorbitt.redbridge.dbprimary.com](http://williamtorbitt.redbridge.dbprimary.com)) and login.
- At the top of the page or in the bottom left hand corner, you will see a link to your child's class page. Click on the class page.

- Click on the tabs at the top of the page to access the home learning.

- Your child will need to complete these tasks in their home learning books and self mark them using the answer sheets provided.
- Once they have done this, you will need to take a picture or scan their home learning and submit it on DB Primary.

## How to submit your work

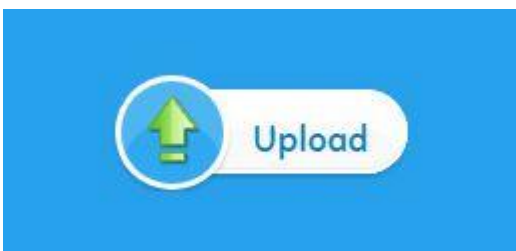

Every week, on the DB primary home page, a folder will appear in your 'Things to Do' section.

The folder will be labelled with the date and homework title. Click on the folder.

You will be presented with a short description of what it is you need to upload.

Click on the upload button.

Find the image or the file that you need to submit and upload this. Once you have done this, the website will take you back to your homepage and the folder will disappear.

When your work has been marked or looked at, you will receive a message on your home page in your 'Marked Work' section.

Sometimes you will see more than 1 folder in your 'Things to Do' section. This is because some weeks, you will need to submit your reading journal entries for the fortnight. Make sure you are reading the folder titles carefully and you are submitting work to the correct folder.
