DAY**

FRIDAY 25TH SEPTEMBER 2020

MINIMUM DONATION OF £1.00

Jeans for Genes Day raises money for Genetic Disorders UK and aims to change the world for children with genetic disorders.

Genetic disorders are rare, but together they affect 1 in 25 children born in the UK.

Associated health problems mean that genetic disorders are the biggest cause of death of children aged 14 years and under. Jeans for Genes Day provides funding for the care and support of children with genetic disorders.

Thank you for your ongoing generosity to the charitable causes we support in school.
